

**STEP Diploma for Scotland (Trusts & Estates)  
Taxation of Trusts and Estates**

**Computations Day**

This additional day of tuition is focussed entirely on computations with lots of practical work for students covering not only the mechanics of computation preparation but also the thought processes that are required before attempting the computation. The sessions are geared towards those delegates who are not confident with this very important aspect of the course.

This is not an essential part of the course because the content of the two Workshop days will not change as a result of the Computations Day, however, computation preparation is a weakness for many delegates and this course offers additional help for those who feel they might need it.

The details of the Computations Day are as follows:

Time: 9.30am – 4.30pm

Location: Glasgow (venue to be confirmed)

Date: 18th October 2010

Delegates will need to make their own lunch arrangements.

The fee will be £135 plus VAT.

The session will run subject to sufficient interest.

A registration form is available to download from the Taxation of Trust and Estates page of the programme website [www.clt-stepscot.co.uk](http://www.clt-stepscot.co.uk) and is also available on request.

The closing date for registering your place is Monday 20th September 2010.
